

Preview Connectors

Confluent is introducing preview connectors to gain early feedback from users. Preview connectors are only suitable for evaluation and non-production purposes and are subject to the [Confluent Software Evaluation License](#). Confluent will provide connector support only for evaluation and non-production testing purposes.

Comments, questions and suggestions related to preview features are encouraged. Confluent customers can submit questions and suggestions, and file support tickets via the [Confluent Support Portal](#)

- » [Kafka Connect AWS CloudWatch Logs Source Connector](#)
